INTRODUCTION

The National Policing Institute (the Institute) Grant Management Portal (the Portal) User Guide provides instructions for creating a new account, accessing the system, and navigating the Portal successfully. This guide provides applicants with the information needed to effectively navigate the site, apply for available grants, access application resources, and track the status of an application. The Portal contains tooltip software on certain questions and application elements, which will appear when the user interacts with an element to provide additional information. Simply hover your cursor over the question or element for the tooltip to appear.

If you need further assistance or have questions about the Portal, please use the Virtual Assistant in the screen's lower right-hand corner or contact the RVCRI team via email at RuralVCRI@policinginstitute.org.

For access to the Portal, visit https://npi.powerappsportals.com/

PROJECT NARRATIVE AND SCOPE

In this section, you must submit a project narrative with the following sections: Description of the Issue, Project Design and Implementation, and Plan for Measuring Success and Outcomes and Program Sustainability. You can do this by attaching a Word document using the provided <u>Narrative template</u> (maximum four to six pages). A successful narrative includes:

- Clear articulation of one or more specific rural violent crime problem(s) the applicant seeks to address.
- Use of crime data and other data sets to clearly explain the nature and concentration of the specific problem you wish to address. Your application should demonstrate an ability and commitment to gathering crime and other data throughout the grant term.
- A clear explanation of plans to involve community members and other stakeholders outside the department in problem analysis, strategy selection, and/or implementation.
- A list of project partners, including any criminal justice partners, community organizations, social and medical service providers, and private businesses involved in the program implementation.

- Identification of individual(s) responsible for implementing the grant and individual(s) administrating the grant (i.e., financial responsibility).
- Discussion of opportunities to sustain the project beyond the grant term.

The below table outlines additional details for each section:

Data Field	Description
Description of Issue	Clearly articulate the rural violent crime problem(s) your application seeks to address. When possible, include supporting violent crime data. The proposed project and the services, equipment, and personnel you include in your budget request must have a clear and compelling nexus to the violent crime problem(s) identified in your application. ¹
Project Design and Implementation	Describe any existing or planned interventions or programmatic enhancements that are intended to address your jurisdiction's violent crime issues. Multiple approaches or problem-solving analysis processes may be used to identify and select alternative solutions. Discuss your agency's organizational capabilities or competencies to address this problem and how your agency would work with the training and technical assistance (TTA) provider to refine approaches and monitor progress. List project partners (including criminal justice partners, community organizations, and service providers) involved in program implementation. Clearly identify the individual(s) within your agency who will be responsible for implementing the grant and the individual(s) administrating the grant (i.e., financial responsibility).
Plan for Measuring Success and Outcomes and Program Sustainability	Describe your agency's willingness to work with the TTA provider on implementation, outcome tracking, and final report production. Outline a proposed plan on how your agency will measure success and outcomes that demonstrate the results of the work performed under the award connected to a problem-solving framework, such as the SARA Model . The TTA provider will support success and outcome measurement

¹ Applicants are not required to submit metrics with the application. Rather, outcome measure information is included as an alert that successful applicants will be required to submit data as part of the reporting requirements under the award.

collection. Discuss how your agency will sustain the project beyond the grant period.

BUDGET

In this section, you will enter your proposed budget for the RVCRI application. Applications may request between \$25,000 - \$150,000. Budgets are subject to the Institute and Bureau of Justice Assistance (BJA) review and approval if awarded. Budgets should outline how funding will be spent to support developing and implementing a rural violent crime reduction plan. The budget should only include costs that are allowable, allocable, reasonable, and linked to the problem(s) and solution(s) proposed.

Indicate the budget categories that your plan will support (you can select more than one option): personnel, hardware, software, equipment, training, consultants, contracts, travel, partner(s)/subaward(s), and other. If other is selected, you will be asked to give the category a title.
